

THE BRITISH
WILLS & PROBATE
AWARDS 2022

MATT PENNINGTON

CHAIRMAN, UK LEGAL TECH ASSOCIATION

WHY DO YOU BELIEVE YOUR CHOSEN NOMINATION IS A CHAMPION?

Matt is championing the use of technology for the advancement of the industry. Bringing together suppliers and tech providers with solicitors and legal professionals, to help them digitise their businesses and find solutions in a consistent manner.

Through the work of the UKLTA, there is now a suppliers charter that companies can use, demo days to easily view technology products, lots of industry webinars and there are key groups within UKLTA for legal companies, for suppliers and for innovation.

WHY SHOULD THE INDUSTRY VOTE FOR THIS INDIVIDUAL?

Matt started this organisation and has not only personally invested in its success, but has made sure he has brought on experts to help drive the vision of allowing the industry to access technical solutions easily while offering advice to guide them through the process.

The UKLTA is now looking at students and helping them access key information also. A lot of time and effort given for free to really help the industry.
