

OPEN TO PRACTITIONERS ONLY

***NEW* Tax and Trust Team of the Year**

The legal landscape continues to evolve. The time of the trusted local professional who did a bit of conveyancing, a few wills, some family matters is increasingly outdated. In its place are specialists who develop their skills and expertise, immerse themselves in the subject matter, and ultimately deliver a more focused service for clients. As the unbundling of legal services continues, demand for specialist advice rises.

This new for 2024 category recognises the team who are delivering expert advice, allied to technical and service excellence. The judges will be looking for evidence of expert understanding of tax and trusts and service delivery excellence, contributing to the wider success of the firm.

Criteria

The winner of this award will:

- evidence expertise and skills in the area of tax and trusts.
- demonstrate how their department delivers exceptional specialist legal advice and client service.
- evidence recruitment, retention and training of staff with high levels of skill and technical ability.
- show a flair for innovation and championing best practice.
- demonstrate use of initiative in challenging situations.
